September - Creationside Month

This year has been one of extremes. Floods, fires, heat waves, and drought.

The burning bush is the Symbol for September - The Season of Creation 2022. Wild fires are one of the devastating impacts of climate change on the most vulnerable of our planet. But the fire that called to Moses did not consume or destroy the bush. The flame revealed God's presence. God in his love for us lent us this beautiful planet, and it is indeed slowly melting. We are very certainly misusing and mistreating it. What a dire legacy for our grandchildren and great grandchildren! But it's not too late. Every little thing we can do will help to repair the damage. Many people each doing one small thing can make a huge difference. The Great big Green Week is from Sept 24th - Oct 2nd. This is the UK's biggest ever celebration of community action to tackle climate change and protect nature.

What little changes could you make during the Season of Creation?

Shoebboxes for CR2EE - **Moldova.**

Now is the time to start thinking about putting a Shoebox together to send to Moldova in November. This year more than ever it will be one of the most generous things you can do to help Moldova and also the people from Ukraine who have been welcomed into Moldova. The people there have so little, but have been willing to share what they have with those who literally fled their country with what they stood up in and could carry. Thank you.
